Dear Director Mueller:

On behalf of President Bush, I write to commend the extraordinary work of the FBI's Special Inquiry and General Background Investigation Unit. Over the last several months, they have completed over six dozen intensive judicial investigations - many of which were done on very short notice. Because of the impressive work of the men and women of the SIGBIU, we have been able to accomplish the President's goal for the timely nomination of judges. My staff and I greatly appreciate their service to the President and the country.

Sincerely,

Alberto R. Gonzales

Counsel to the President

The Honorable Robert Mueller
Director
Federal Bureau of Investigation
950 Pennsylvania Avenue, NW
