This note is to keep you current on the status of the on-going effort to resolve the "Specter issue" with S. 274.

Yesterday I provided you with the language we had provided Senator Specter which we believe addresses the issues of his concern and eliminates the unintended consequences of his amendment offered during Committee mark-up.

In response to that proposed language John Beinser received a nice note thanking everyone for their efforts to work out the mass action issue. We are also aware that the Senator's staff talked to Senator Grassley's staff yesterday for clarification of a minor point.

Beyond that, however, none of us has heard anything back from Specter's office. The Specter staff had indicated that working through the issue was their "top priority," but as of last night, we have received no substantive response.
