Scope and Content

The materials in FOIA 2014-0042-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0042-F contains materials related to drafts of the 2002 State of the Union Address.

This FOIA primarily contains drafts of the 2002 State of the Union Address. This material ranges from draft #1 through draft #33 and includes the copy that President George W. Bush used at the lectern in the Capitol. Also included are speech planning materials from White House staffers discussing speech content and wording; emails transmitting speech drafts; guest lists for the First Lady's box; documents regarding the production of speech booklets that were given to members of Congress; scheduling materials; and correspondence.

It should be noted that many of the documents listed here have been closed to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in FOIA 2014-0042-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA request 2014-0042-F contains records on drafts of the 2002 State of the Union Address.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

George W. Bush Presidential Electronic Records are a unique segment preserved in an electronic system separate from the Electronic Records Archive (ERA). The records are processed by topic, printed, and filed in folders. Folders are arranged by Search and Access Set and thereunder by date.

George W. Bush Presidential Electronic Records contain electronic records created or received by members of the White House staff, as well as the Commission on Weapons of Mass Destruction. These frequently classified records document the daily constitutional and statutory duties carried out by the George W. Bush administration and include record types such as email, email attachments, Night Notes, and cables.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2014-0042-F:
