Scope and Content

The materials in FOIA 2014-0059-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0059-F requested materials related to President George W. Bush's meeting with European leaders, including Prime Minister of the European Union Jean-Claude Juncker, President of the European Commission Jose Manuel Barroso, and High Representative of the European Union Javier Solana, in Brussels, Belgium on February 22, 2005.

This FOIA primarily contains schedules, website printouts, fax cover sheets, routing memos, briefings, fact sheets, forms, transcripts, press releases, web printouts, and statements. The majority of this request consists of briefing book and trip book materials related to the trip

President George W. Bush took to Europe in February 2005. These briefing and trip book materials include scene setting reports on the places President George W. Bush visited, schedules, press availabilities, talking points, and Q and As. Electronic records consist of articles, schedules, final remarks, press briefings, a Q and A, and photos and text for the White House website regarding President George W. Bush's trip to Europe in February 2005.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2014-0059-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2014-0059-F:
