

## **Inventory for FOIA Request 2014-0068-F**

### **Records on German Chancellor Gerhard Schroeder's Speech on February 12, 2005**

#### **Extent**

5 folders, approximately 211 pages / 103 assets

#### **Access**

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processing by**

Staff Archivists, 2015. Previously restricted materials are added as they are released. Last Modified: 07/10/2020

#### **Scope and Content**

The materials in FOIA 2014-0068-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0068-F contains materials related to the speech given by German Chancellor Gerhard Schroeder at the Munich Security Conference in Munich, Germany, February 12, 2005.

This FOIA primarily contains advance text of Chancellor Gerard Schroeder's speech delivered by Federal Minister Peter Struck at the Munich Security Conference, Morning Press Summaries from the Press Office at the U.S. Embassy in Berlin, news articles with commentary, and an invitation to a round table luncheon regarding the Munich Security Conference.

It should be noted that many of the documents listed here may have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

### **System of Arrangement**

The materials in FOIA 2014-0068-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu)

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

George W. Bush Presidential Electronic Records are a unique segment preserved in an electronic system separate from the Electronic Records Archive (ERA). The records are processed by topic, printed, and filed in folders. Folders are arranged by Search and Access Set and thereunder by date.

George W. Bush Presidential Electronic Records contain electronic records created or received by members of the White House staff, as well as the Commission on Weapons of Mass Destruction. These frequently classified records document the daily constitutional and statutory duties carried out by the George W. Bush administration and include record types such as email, email attachments, Night Notes, and cables.
