

## **Inventory for FOIA Request 2014-0126-F**

### **Records on Performance Enhancing Drugs in Professional Baseball**

#### **Extent**

227 folders, approximately 11,797 pages / 733 assets

#### **Access**

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processing by**

Staff Archivists, 2016. Previously restricted materials are added as they are released. Last Modified: 07/20/2020

#### **Scope and Content**

The materials in FOIA 2014-0126-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0126-F contains materials related to the use of performance enhancing drugs in professional baseball.

This FOIA primarily contains speech drafts, research material, and presentation copies of the 2004 State of the Union Address. A large quantity of material relates to the creation of the State of the Union Address, as the speech mentions the usage of steroids within professional sports. Other records include schedules for the President and the Chief of Staff Andrew Card, scheduling proposals, cabinet member schedules, working group meeting calendars, and policy time meeting calendars. Additionally there is material regarding the International Convention

Against Doping in Sports, draft and final thank you letters from the President to presidential event participants, memoranda to the President approving potential presidential appointments, resumes, copies of legislation, summaries of Congressional hearings, press releases, gift records, pool reports, emails, news articles, fact sheets, briefings, and talking points. Lastly there is correspondence from Congress, individuals, and organizations as well as from local government officials regarding resolutions.

### **System of Arrangement**

The materials in FOIA 2014-0126-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu)

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2014-0126-F:

### ***George W. Bush Electronic Records***

ARMS contains 2 assets.

Exchange contains 664 assets.

Exchange 21 Days contains 1 asset.

Exchange 33 Days contains 10 assets.

Exchange 40 Days contains 18 assets.  
RNC\_PST contains 30 assets.  
WHO contains 8 assets.
