#### **Scope and Content**

The materials in FOIA 2014-0158-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0158-F contains communications, schedules, notes and other records for George W. Bush, Laura Bush, Joshua Bolten, Andrew Card, Ari Fleischer, Karl Rove, Karen Hughes, Joe Hagin, and Condoleezza Rice from September 11, 2001.

Textual records include draft and final schedules, calendars, press releases, fact sheets, pool reports, remarks, handwritten notes, briefings, talking points, draft and final speeches, speech cards, and Q&As. There are many briefing papers which consist of schedules and related

briefings, speeches, and talking points for events in late August and early September 2001. The majority of schedules for September 11, 2001 reflect the originally scheduled events that were eventually overcome by the emergency response to the terrorist attacks. There is a notebook containing handwritten notes detailing President George W. Bush's movements and meetings from the beginning of the emergency response through mid-September.

Electronic records include press briefings, approved scheduling memoranda, narrative schedules for Vice President Richard B. Cheney, and *Los Angeles Times* news updates. There is an email regarding the speech given by President George W. Bush following the events of September 11, 2001. There is also an unsolicited email suggesting that the American flag be raised from half-staff to show strength.

### **System of Arrangement**

The materials in FOIA 2014-0158-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu)

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
