Scope and Content

The materials in FOIA 2014-0237-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0237-F[1] requested materials related to White House Visitor's Log records from January 20, 2001 to January 20, 2009.

The first segment of this FOIA primarily contains worker and visitor entry records from January 20, 2001. These entries are comprised of information for surnames A-F. There are misspellings and missing data in these records; names may be spelled in a variety of ways, and not all fields are present for every record. The records being released reflect the data that was entered into the

original Worker and Visitor Entry System (WAVES) by White House staff, including all misspellings and empty fields.

System of Arrangement

The materials in FOIA 2014-0237-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – George W. Bush Presidential Electronic Records.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

Related Collections and FOIA Requests – 2014-0442-F

Due to the high public interest in these materials, responsive records processed in response to FOIA 2014-0237-F[1] will be posted on our website as they become available.
