Scope and Content

The materials in FOIA 2014-0342-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0342-F contains records sent to or created by Mitchell E. Daniels Jr., during his service as Director of the Office of Management and Budget (OMB), regarding securities regulation, market regulation, or the Securities and Exchange Commission (SEC).

This FOIA primarily contains printed emails, correspondence, memoranda to Agency Heads and Directors, reports to Congress, mid-session reviews, proposals, budget amendments and appropriations, budget material with charts and tables, drafts of Executive Orders, OMB

Bulletins, briefs, and press releases. General correspondence includes mail from agency heads and congress members concerning a variety of budgetary topics. In addition, there are routine White House staffing memorandums and conference notes. Electronic records consist of articles, talking points on the FY 2002 Supplemental Budget Request, page proofs of the Other Agencies chapter for the FY 2003 Budget, a comparison chart for House and Senate work on Corporate Responsibility, and the July 2002 White House Comment Line Monthly report. Additionally, there are emails regarding SEC fees and pay parity.

System of Arrangement

The materials in FOIA 2014-0342-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
