Scope and Content

The materials in FOIA 2015-0110-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2015-0110-F requested materials related to Linda Schrenko, Georgia Superintendent of Schools, from 2001 to 2002.

This FOIA primarily contains press releases, press gaggles, articles, contact information for state education officials, Worker and Visitor Entry System (WAVES) information, letters to superintendents after September 11th, as well as participant lists, place cards, seating charts, thank you notes, and briefing papers for education meetings at the White House. This request also includes a print-out of a webpage from the Georgia Department of Education.

System of Arrangement

The materials in FOIA 2015-0110-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member and Office Files and George W. Bush Presidential Electronic Records.

Staff Member and Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
