Scope and Content

The materials in FOIA 2015-0113-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2015-0113-F contains materials related to Secretary of Education Rod Paige's visits to Atlanta in 2002.

This FOIA primarily contains draft and final schedules, briefing papers, prepared remarks, movement diagrams, fax cover sheets, and event scenarios for the January 30-31, 2002, trip of President George W. Bush to Winston-Salem, North Carolina, Daytona Beach, Florida, and Atlanta, Georgia. Secretary of Education Rod Paige accompanied him during an education event in Atlanta. Also included is a binder containing spreadsheets listing the outreach events Secretary Rod Paige participated in during 2001 and 2002 including interviews, school visits, meetings,

photo opportunities, press conferences, and speeches – some of which occurred in Atlanta. Electronic records consist of press releases, briefing papers, schedules of cabinet members, and administrative event planning correspondence.

System of Arrangement

The materials in FOIA 2015-0113-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2015-0113-F:
