The materials in FOIA 2015-0200-F are a selective, not necessarily all-inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2015-0200-F requested materials related to photographs and video taken during meetings between President George W. Bush and Prince Bandar Bin Sultan, Saudi Arabia's Ambassador to the United States.

This FOIA primarily contains photographs created by staff photographers from the White House Photo Office showing various meetings between President George W. Bush and Saudi Arabian Ambassador Prince Bandar Bin Sultan in the Oval Office and at Prairie Chapel Ranch. It also

contains three master tape video recordings from the White House Communications Agency - WHTV series, including the arrival for an April 25, 2005 visit to Prairie Chapel Ranch in Crawford, Texas, and Fox News coverage of the visit.

### **System of Arrangement**

The materials in FOIA 2015-0200-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.
