Scope and Content

The materials in FOIA 2015-0237-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2015-0237-F requested materials related to Bolivia from the National Security Council.

This FOIA primarily contains routine planning emails for meetings, participant lists, schedule proposals, schedules, travel requests, fact sheets, Q and As, routine head of state correspondence, and routine briefing materials regarding Summit of the Americas. There are reports to Congress, including the Third Report to the Congress on the Operation of the Andean Trade Preference Act as Amended and the First Annual Report to Congress on the Inter-American Convention Against Corruption. Included are several routine head of state letters such as a letter to President George W. Bush from Bolivian President Jorge Quiroga declining an invitation to an inauguration, a letter from President Gonzalo Sanchez de Lozada on the anniversary of 9/11, and a cable

offering condolence on the death of former President Hugo Banzer. These materials are from the National Security and cover the topic of the Andean Trade Promotion and Drug Eradication Act.

It should be noted that many of the records in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2015-0237-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of folders processed in response to FOIA 2015-0237-F:
