Scope and Content
The materials in FOIA 2015-0276-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2015-0276-F requested material related to the Iraq Surge between February 1, 2006 and May 1, 2008 from the National Security Council – Records Management Office.

This FOIA primarily contains NSC Profile Sheets, routing forms, routine printed e-mails, routing memoranda, press points, meeting participant lists, biographies of meeting participants, and meeting seating charts. Included are scheduling materials for meetings with National Security Council and drafts thereof.

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement
The materials in FOIA 2015-0276-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
