Scope and Content

The materials in FOIA 2017-0147-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2017-0147-F requested records from the White House Office of Records Management related to Thomas “Tom” Price.

This FOIA primarily contains correspondence, briefings, schedules, lists of attendees at events, unsolicited resumes, news articles, administrative documents such as barcode scanning sheets, fax cover sheets, routing memos, and routine documents such as scheduling requests and printed emails. The majority of this request consists of a variety of types of correspondence including letters to the White House from Tom Price and other members of Congress, letters from President George W. Bush to individuals celebrating life events such as birthdays and marriages,

letters from President George W. Bush to groups and organizations, holiday cards to President George W. Bush and Mrs. Bush from friends and associates, signed grip-and-grin photographs from events, responses to letters originally addressed to the White House from various agencies, scheduling requests, and invitations.

System of Arrangement

The materials in FOIA 2017-0147-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject Files and Alpha Files were compiled by staff in the White House Office of Records Management and are a series of documents assigned a letter/number combination and filed in a series of categories by subject. WHORM Subject Files and WHORM Alpha Files are processed at the document level.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
