Scope and Content

The materials in FOIA 2014-0258-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0258-F requested materials from the National Security Council related to President George W. Bush's first meeting with Prime Minister Maliki on June 13, 2006.

This FOIA primarily contains general correspondence between administration officials, biographies, participant lists, agendas, news articles, reports, presentations, transcripts and statements. These materials are from the National Security Council and include an April Iraqi Trip Report by Barry McCaffrey and a Joint Statement by President George W. Bush and Russian Federation President Vladimir Putin announcing the global initiative to combat nuclear

terrorism. Electronic records consist of fact sheets, articles, Q and As, talking points, radio addresses, final testimony, schedules and pool reports. These materials relate to a scheduled meeting at Camp David in which President George W. Bush was to have a video conference with Prime Minister Maliki in Iraq; however, President George W. Bush made a surprise visit to Iraq to meet with the Prime Minister instead. Materials include a final Q and A prior to the Camp David meetings, a final fact sheet at the conclusion of the meetings entitled "Camp David Meetings: Building on Progress in Iraq," articles and pool reports related to the surprise visit, and schedules for the Camp David meetings. Additionally, there are talking points, articles, and other published materials regarding the death of Abu Musab al-Zarqawi; final testimony by Ambassador James F. Jeffrey on Iraq after the Camp David meetings; and a radio address by President George W. Bush from June 17, 2006.

The RNC PST Search and Access Set was excluded from this request, as it included over 4,000 duplicate copies of three emails that are included in the Exchange Email Search and Access Set.

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2014-0258-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list electronic search results lists (SRLs and folders processed in response to FOIA 2014-0258-F:
