Scope and Content

The materials in FOIA 2018-0056-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2018-0056-F requested materials related to any personal meetings, calls or other activities between Haley Barbour and President George W. Bush that occurred in 2002 and 2003.

This FOIA primarily contains speech drafts, schedules, trip books, briefing papers, event background information and memoranda, biographies of participants, internet printouts, a recommended telephone call memorandum, a memorandum for Karl Rove from Haley Barbour, correspondence between the White House and Haley Barbour, the Presidential Daily Diary and Backup, movement logs, and call logs. Electronic records consist of schedules, White House news clips and articles, scheduling and administrative emails, web transcripts of speeches,

Worker and Visitor Entry System (WAVES) records, press gaggles and press schedules, photo requests, a recommended telephone call memorandum, and requests from the Haley Barbour campaign. Many of these materials relate to two trips President George W. Bush took to Mississippi on September 12, 2003 and November 1, 2003.

System of Arrangement

The materials in FOIA 2018-0056-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files, Staff Member Office Files, and George W. Bush Presidential Electronic Records.

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject Files and Alpha Files were compiled by staff in the White House Office of Records Management and are a series of documents assigned a letter/number combination and filed in a series of categories by subject. WHORM Subject Files and WHORM Alpha Files are processed at the document level.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.

The following is a list of electronic search results lists (SRLs) and folders processed in response to FOIA 2018-0056-F:
