March 14, 2005

MEMORANDUM FOR ANDY CARD, KARL ROVE AND JOE HAGIN

FROM: KRISTEN SILVERBERG, JONATHAN BURKS, BRIAN HOOK

RE: NIGHT NOTE

- **Mercury Rule** – Asst. Admin Holmstead will announce the rule tomorrow at 2:00 p.m. tomorrow. The roll-out documents are being reviewed by the appropriate WH offices.
- **Title IX Manual** – This Friday, the Department will issue a Manual to help schools that want to use surveys to test student interest in sports. Schools that can demonstrate that one gender has less interest in participating in sports can adjust their athletic programs accordingly. The Manual will not be well-received by women's groups but is consistent with the Department's previously announced views on the appropriateness of surveys. The Speaker's office is comfortable with the roll-out plan and we do not expect the Speaker to raise concerns tomorrow with the President. The Department will brief Members of Congress and a select reporter on Thursday. We will briefly raise with the President during Policy Time tomorrow.
- **Incapacitated Persons Legal Protection Act** ("Terry Shiavo bill") – Rep. Weldon and Sen. Martinez introduced legislation to allow incapacitated individuals who are the subject of a court order to remove nutrition, hydration or medical treatment to challenge the court order in federal district court. At a DPC-hosted meeting today, the group agreed that DOJ should work with Hill staff to make technical corrections to the bill.
- **Food Pyramid** – USDA is preparing to roll out an updated food guidance system which will replace the food pyramid (and the 4 basic food groups). The dietary recommendations change based on age, weight, activity level, etc. so USDA has developed an interactive tool (mypyramid.gov) where people can enter their relevant data and get personalized recommendations. WH communicators will work with USDA on the rollout, which may be March 29.
- **Bioethics** – During the SOTU address, the President expressed general support for additional bioethics protections. We told reporters at the time that he would put out details at a later date. After lengthy discussions with Leon Kass and others, Mike Gerson, DPC (and Kristen) recommend seeking legislation that includes only the provisions widely supported by the outside groups (no man-animal hybrids; no commoditization of embryos; and no fetal farming). We would not recommend including provisions on either reproductive or research cloning, but would continue to pursue these for now through the existing Brownback legislation. We are working with DPC and OLA on a strategy and will ask DPC to convene a principals meeting at the appropriate point.

Other Issues

- Supplemental (Shirzad/Cleveland; Silverberg) – A draft SAP is in staffing raising the need for funding for the Solidarity Fund, UN Peacekeeping, funding for Ukraine, the Embassy and other issues.
- TPA Extension (Shirzad/NSC; Burks) – President must submit extension request by April 1.
- Iran Nonproliferation Act (Klinger/NSC; Burks)
- Asbestos (Ho/DPC; Hook) – Sec. Chao will testify tomorrow before Senate Labor and HHS regarding our preference for creating a separate entity to administer the Fund, rather than placing the Fund at DOL.
- Born-Alive Infants Protection Act (Ho/DPC; Hook) – DPC convened a meeting to have HHS brief us on their plan to issue a guidance letter for the first time enforcing the Born-Alive Act. We have asked HHS to develop its roll-out plan with the close participation of Sec. Leavitt.
- Welfare (Halaska/DPC; Hook) – Senate Finance passed welfare reauthorization with \$6b in childcare spending offset by closing EITC loopholes. The bill also increases SSBG funding by \$1b over five, also offset. Frist is reportedly disinclined to give the bill floor time in the near future. A Ways and Means subcommittee will mark up a bill this week.
- Economic and Community Development (Halaska/DPC; Hook) – DPC's goal is have legislation drafted by April 8 to release publicly.
- Helping America's Youth Initiative (Halaska/DPC; Hook)
- Abstinence (Halaska/DPC; Hook) – Leavitt will do an event by the end of March to roll out abstinence materials, (a parent guide and teen guide) developed by HHS in consultation with the WH.
- Indians (Ho/DPC; Hook) – Kristen spoke to DOI about the Hatch issue. DPC is running a process on long-term fixes to the Indian Trust Fund issue.
- Endangered Species Act (CEQ; Hook) – The House (Rep. Pombo) and Senate (Chafee and Crapo) both are drafting updates to the Endangered Species Act, which they hope to pass this Congress.
- Health IT (Hall/DPC; Burks)
- EEOC (Colucci/DPC; Hook) Definition of "Applicant" – DOL will finish internal clearance of its rule and share with EEOC as soon as possible. EEOC will then find a way to signify by reference or footnote in their final guidance that DOL's rule is consistent with EEOC's position.
- FECA Reform (Colucci/DPC; Hook) – DOL's proposed bill would save nearly \$700 million over 10 years. DPC hosted a meeting last week to work through two provisions that remain unresolved concerning the payment of "concurrent receipts" of workers comp and pension benefits for injured workers who return to work. The second involves streamlining workers comp payments. Parties discussed a compromise of these proposals.
- Immigration/ Temporary Worker Program (Ho/DPC; Hook) – Claude will be meeting with members of Congress starting next week to learn more about the support and opposition to the TWP. Senator Kyl has expressed to us an interest in moving a bill in the fall. Allyson will host an interagency meeting next week.

- Tort Reform/ Lawsuit Abuse Reduction Act (Ho/DPC; Hook) – We met with DOJ last week and received a more optimistic briefing than expected on reaching agreement with the bill sponsors on revisions
- Tricare Rx (Hall/DPC; Burks) – Proposed FSS rule will be published soon; litigation likely on FCP.
- FOIA Legislation (Newstead/OMB; Burks) – DOJ preparing views letter on Cornyn-Leahy legislation that will be critical of most of the bill; won't deliver letter until after conversations with Cornyn staff.
- Federal Sentencing Guidelines (Ho/DPC; Hook) – DOJ will have a legislative proposal at the end of the month for White House review
- Union Financial Transparency (Colucci/DPC; Hook) – DOL has informally submitted the rule to provide for greater union financial transparency for White House comment prior to the formal submission.
- FAA contract negotiations with air traffic controllers (Colucci/DPC; Hook)
- Methamphetamine (Gilbert/DPC; Hook)
- Crime/Guns (Ho/DPC; Hook) – A House Democrat introduced legislation yesterday that would ban terror suspects on out watch lists from buying guns. Senator Lautenberg and several Democratic colleagues have requested a meeting with Director Mueller to discuss legislative fixes. DPC will convene a discussion with DOJ, DHS and WH offices on the issue.
- Digital TV Transition (NEC; Burks) – House interested (Senate skeptical) in setting hard date for television broadcasters to move from analog spectrum to digital spectrum and removing 85% rule. Action as part of reconciliation possible, but not likely.
- GSE Reform (Warsh/NEC; Burks) – OLA will test with Shelby staff next week the possibility of keeping new program review at HUD (at Secs. Snow and Jackson's request) and whether the new proposal to regulate portfolio composition changes Hill views on the appropriate location for the new regulator (Treasury v. independent).
- Tax Reform (Reardon/NEC; Burks) – The Tax Reform panel has three additional hearings planned for Chicago, New Orleans, and San Francisco. The Commission is working toward an interim report in April that will describe the need for reform of the tax code.
- Terrorism Insurance Reauthorization (Warsh/NEC; Burks) – Treasury report on program due June 30, 2005 but expected earlier; program expires December 30, 2005. NEC has launched broad policy review to ensure all options are considered.
- Buy American Act (Safavian/OMB; Burks) – Defense Authorization likely to be locus of fight on "excessive" non-compliance with American production requirements.
- Pensions (Hennessey/NEC; Burks)
- Telecommunications (Russell/NEC; Burks) – NEC will convene a meeting next week to discuss next steps w/r/t legislation and administrative approaches.
- Postal Reform (Colucci/DPC; Hook) – Claude met last week with Senators Collins, Carper and Chairman Davis, and the meeting was fairly contentious. Collins and Davis pointedly blamed OMB for killing postal reform last Congress. Davis said that if the White House stops reform again, we will not move any legislation through his committee. The Members said that they are taking our reforms and receiving nothing in return. Claude responded that we need real reforms; the bills must be deficit-neutral; we will take a hard look at escrow, and will work closely with them to pass legislation.
