

# George W. Bush Presidential Library and Museum

2943 SMU Boulevard, Dallas, TX 75205-2300

## Inventory for FOIA Request 2014-0230-F[1]

### **Records Sent to, Sent by, or Received by President George W. Bush about the Administration's Preparation for and Response to Hurricane Katrina between August 1, 2005 and August 1, 2006**

#### **Extent**

503 folders, approximately 45,081 pages

#### **Access**

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processing by**

Staff Archivists, 2019. Previously restricted materials are added as they are released. Last Modified: 06/17/2025

#### **Scope and Content**

The materials in FOIA 2014-0230-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0230-F[1] requested materials sent to, sent by, or received by President George W. Bush about the Administration's preparation for and response to Hurricane Katrina between August 1, 2005 and August 1, 2006.

The first segment of this FOIA primarily contains disaster declarations, correspondence, news clippings and press releases, speeches and remarks, publications, maps, and legislation all

generally dated from August 2005 through August 2006. Specifically, correspondence includes letters, printed emails, and memoranda from the general public and production requests from members of Congress regarding the Bush Administration's preparation for and response to Hurricane Katrina. Some topics include evacuees, New Orleans levee failures, housing, benefits and funds distribution, charitable response, environmental effects, economic losses, and recovery efforts. Also, there are routine disaster declarations and federal assistance requests from Florida Governor Jeb Bush, Louisiana Governor Kathleen Blanco, and Mississippi Governor Haley Barbour. The vast majority of the documents present are publications, with some supporting documentation, for "The Federal Response to Hurricane Katrina, Lessons Learned" and the One-Year Anniversary. There is some material related to Hurricane Rita as well.

### **System of Arrangement**

The materials in FOIA 2014-0230-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu).

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2014-0230-F[1]:
