

Inventory for FOIA Request 2014-0226-F[1]

Records Sent to, Sent by, or Received by President George W. Bush Regarding Iran and Mahmoud Ahmadinejad

Extent

1,680 folders, approximately 50,709 pages

Access

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2018. Previously restricted materials are added as they are released. Last Modified: 08/14/2026

Scope and Content

The materials in FOIA 2014-0226-F[1] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0226-F[1] requested materials related to records sent to, sent by, or received by President George W. Bush regarding Iran and Mahmoud Ahmadinejad.

The first segment of this FOIA contains acts and bills, cables, calendars, chronologies, correspondence, cover sheets, distribution receipts, executive orders, fact sheets, forms, lists, National Intelligence Estimates, National Security Council Profile Sheets, National Security Presidential Directives, news articles, notes, press releases, a proclamation, Q and As, reports, schedules, statements, talking points, and transcripts.

This FOIA primarily contains documents related to regime change in Iran, sanctions against Iran, Iran's nuclear ambitions, Iran financial assets, weapons of mass destruction, the Mojahedin-e Khalq (MEK), and reports related to counterproliferation. These materials come in the form of news sources, timelines, reports to Congress, unclassified white papers, and open source reports. This FOIA also includes briefing book and trip book materials related to several trips President George W. Bush took between 2001 and 2005, notably to APEC meetings in 2001 and 2004; to G-8 Summits in 2003, 2004 and 2005; and to New York for the United Nations General Assembly in 2003. These briefing and trip book materials include scene setting reports on the places President George W. Bush would be visiting, calendars, press availabilities, talking points, and Q and As. There are also reports on Lebanon, the government structure of the Islamic Republic, several reports issued by the International Atomic Energy Agency, and copies of United Nations Security Council Resolutions. Lastly, this FOIA contains correspondence between President George W. Bush and members of Congress on matters related to Iran.

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

System of Arrangement

The materials in 2014-0226-F[1] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas - White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu

The following is a list of documents and folders processed in response to FOIA 2014-0226-F[1]:
