

“Many years ago this site would have been a breathtaking Texas prairie. Today the park is planted once again with native habitat for birds, butterflies and other wildlife.

Visitors can experience this state’s beautiful natural environment in the center of Dallas.”

– Mrs. Laura W. Bush

Welcome to the George W. Bush Presidential Library

The Native Texas Park features:

- Native Blackland Prairie grasses
- Seasonal wildflowers
- Clearings that provide native habitats for butterflies, birds, and other species
- Tree-shaded lawns
- Amphitheater

A one mile network of paths will take you through native Texas environments such as Blackland Prairie, Post Oak Savannah and Cross Timbers Forest.
