Scope and Content

The materials in FOIA 2019-0049-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2019-0049-F requested materials related to the display of portraiture in the White House depicting Andrew Jackson.

This FOIA primarily contains correspondence, schedules, briefings, printed emails, news articles, administrative documents, and documents containing information on White House furnishing and decor. Correspondence includes incoming letters from the public to Mrs. Laura Bush on a broad range of topics and draft and final responses to these letters from Misty Marshall. Specifically, there are letters from Ann Earle Saxon; Saxon is a descendent of Ralph

Eleaser Whiteside Earl, the painter of a portrait of Andrew Jackson that was displayed in the White House. Also included are administrative documents relating to the handling of various letters. There is a briefing paper packet for President George W. Bush which includes his schedule, briefings for routine events including a photo opportunity and interviews regarding his first 100 days in office. Electronic records also include copies of the correspondence with Saxon, news articles and compilations of news articles that mention a Jackson portrait, draft versions of the text for a White House holiday program from 2006, a transcript of an audio recording of an interview with Bill Allman, and documents containing information used for White House walking tours.

System of Arrangement

The materials in FOIA 2019-0049-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) and George W. Bush Presidential Electronic Records.

WHORM Subject and WHORM Alpha Files are processed at the document level.

The WHORM Alpha File was compiled by the White House Office of Records Management and is a series of documents arranged by name of persons, organizations, or events.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at www.georgewbushlibrary.smu.edu.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program, such as Exchange Email or the Worker and Visitor Entry System (WAVES). In addition to records captured from the White House's electronic systems, EOP-ERA also contains records from the home and shared drives used by White House staff.
