**Subject:** Hello

Sorry to be difficult to reach on this one. We would like to do this again, preferably in July (unless there is a high court vacancy, in which case it likely will be postponed for a bit). How does July 10 or 17 look for your group as a tentative date to meet with Judge and me? We would like to broaden the discussion out and perhaps get ideas from you all on several things. One, how would you all would improve the PRA (not the order) and FOIA if you could. Second, as a discussion item, how would you all would design a system of disclosure for Presidential/Executive records, Congressional records, and Justice/Judge records if you were starting from scratch. Finally, we would like to get your thoughts about Presidential libraries; what makes them good, what makes them difficult. I think this kind of dialogue could be useful for both of us and broader than ones we had most recently. These ideas are all just for discussion and thought; we are not planning anything along these lines, but we just think this would be useful for you and us to discuss. Let me know.
