#### **Scope and Content**

The materials in FOIA 2022-0135-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2022-0135-F requested textual records associated with the “Strategery Group” from February 2002 – April 2002.

This FOIA primarily contains notes, correspondence, and printed information regarding then-current political issues and policy received or used by the Office of the Chief of Staff, including one printed email regarding inviting “Bridge” to Strategery; schedules of the Chief of Staff and President George W. Bush, including Strategery meetings; correspondence, scheduling requests, White House gift records, and printed information regarding then-current political issues and policy received or used by the Office of Karl Rove, including a voter/consumer research survey

and a memorandum for Strategy. Also included are Long-Range Strategy briefings analyzing the level of support for President George W. Bush and his administration's various initiatives via public opinion polls and long-range calendars outlining tentative meetings, trips, events, political themes, and legislative dates.

### **System of Arrangement**

The materials in FOIA 2022-0135-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject Files and Alpha Files were compiled by staff in the White House Office of Records Management and are a series of documents assigned a letter/number combination and filed in a series of categories by subject. WHORM Subject Files and WHORM Alpha Files are processed at the document level.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of folders processed in response to FOIA 2022-0135-F:
