Collection is open to all researchers. Access to George W. Bush Presidential records is governed by the Presidential Records Act (PRA) (44 USC 22, as amended) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Processing by

Staff Archivists, 2025. Previously restricted materials are added as they are released. Last Modified: 11/17/2025

Scope and Content

The materials in FOIA 2022-0040-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2022-0040-F requested photographs and video footage of White House staff member Rajeev Venkayya.

This FOIA primarily contains one video of a press briefing on the National Strategy for Pandemic Influenza Implementation Plan. Participants include Dr. Rajeev Venkayya, Special Assistant to the President for Biodefense, Ambassador John Lange, State Department Special Representative on Avian and Pandemic Influenza, Dr. John Clifford, USDA Chief Veterinarian, Admiral John Agwunobi, Assistant Secretary of Health, and Dr. Jeff Runge, DHS Chief Medical Officer on Pandemic Preparedness. This FOIA also contains photographs of Rajeev Venkayya during various White House meetings related to homeland security, pandemic response, and

avian flu. Also included are photographs during events such as a meeting with White House Fellows, a greeting with Prime Minister Dr. Manmohan Singh of India, a swearing-in of commissioned officers, as well as official staff portraits, departure photographs, and holiday reception photographs.

System of Arrangement

The materials in FOIA 2022-0040-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program.

The following is a list of electronic search results lists (SRLs) and videotapes processed in response to FOIA 2022-0040-F:

George W. Bush Electronic Records

2022-0040-F_All_photos contains 343 photographs, of which 340 are released in full, 1 is released in part, and 2 are withheld in full.
