Scope and Content

The materials in FOIA 2025-0024-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2025-0024-F requested materials related to the 2006 State of the Union address, focused on the phrase "America is addicted to oil, which is often imported from unstable parts of the world," and the subsequently mentioned goal of replacing "more than 75 percent of oil imports from the Middle East by 2025" from the National Economic Council.

This FOIA primarily contains printed statements on energy policy.

System of Arrangement

The materials in FOIA 2025-0024-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in this collection area – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
