Material at the George W. Bush Presidential Library Pertaining To Health

Introduction

This guide includes the principle files at the George W. Bush Presidential Library that contain material relating to health that have been processed and are available for research. It is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files.

This guide identifies materials that have been opened for research through systematic processing or under a Freedom of Information Act (FOIA) request. Check the [George W. Bush Presidential Library website](http://www.georgewbushlibrary.smu.edu), as it is constantly updated with new [finding aids](#) and [digitized content](#). If records are available digitally, a link has been provided.

To key-word search digitized content from across the National Archives and Records Administration, visit the [National Archives Catalog](#). To see material exclusively from the George W. Bush Presidential Library, perform an [Advanced Search](#) selecting George W. Bush Presidential Library as the Location of Archival Materials.

Preferred Citation for records of the George W. Bush Presidential Library: Type of document; names of sender and recipient, or title of document; date; folder title or White House Office of Records Management Subject Code and case number; box number; Collection Title and series/subseries, George W. Bush Presidential Library.

White House Office of Records Management (ORM)

The White House Office of Records Management is responsible for the filing and retrieval of records created during the incumbent presidential administration. Records are arranged by subject code and case file ID number according to their general subject matter.
