Scope and Content

The materials in FOIA 2025-0121-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2025-0121-F requested materials related to photographs and video of President George W. Bush's visit and speech at the Pontiac Silverdome in Pontiac, Michigan on October 27, 2004.

This FOIA primarily contains photographs of President George W. Bush and First Lady Laura Bush's departure from Findlay Airport in Ohio in route to Pontiac, Michigan. There are also photos of President George W. Bush greeting police officers and other attendees after his remarks at the Pontiac Silverdome.

System of Arrangement

The materials in FOIA 2025-0121-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.

The Executive Office of the President (EOP) instance of the Electronic Records Archive (ERA) contains electronic records created or received by President George W. Bush. These records are stored in Search and Access Sets (SAS) that represent their originating computer program.
